

Pulmonology/Critical Care

From diagnosis, education and treatment, our Pulmonologists provides their patients with high level medical care to treat their illnesses and chronic issues to help them breathe easier. At Thomas Health, we offer exceptional care to our patients through evidence-based care guidelines and also a variety of outpatient based pulmonary testing, such as:

- Spirometry
- Full Pulmonary Function Testing
- Asthma Challenge Study
- Cardiopulmonary Stress Testing
- Six Minute Walk Test
- Overnight Pulse Oximetry
