

Surgical Services

At Thomas Health, we are dedicated to providing quality surgical care to our patients. We offer the latest advancements in surgical procedures, and our surgeons are specially trained in a variety of surgical procedures including:

Breast Surgery

- Minimally invasive breast biopsy (ultrasound guided and stereotactic)
- Partial breast resection (Lumpectomy)
 - Sentinel lymph node biopsy

EGD and Colonoscopy

Hernia Repair

- Inguinal
- Incisional
- Umbilical
- Ventral

Laparoscopic and Single Incision Robotic Cholecystectomy

Laparoscopic and Open Gastrointestinal Surgeries

- Laparoscopic colon resection

Skin/Soft Tissue

- Skin cancer
- Benign and malignant soft tissue tumors

IV Access

- Port placement

We are proud to offer exceptional surgical services on both an inpatient and outpatient basis. All of the latest technologies are available for a multitude of procedures, including diseases of the bowel, gallbladder, stomach, and other digestive organs, as well as appendectomies and gallbladder removal.
